To whom it may concern;

I am writing to recommend Melani Fuller in consideration for hire in your company. I have known Melani for 6 years, first as the business office manager at Regency Woodland before a deserving elevation to General Manager. I assisted her efforts at Regency Woodland as her Corporate Nurse for Regency Pacific Inc for several years.

Melani is well qualified for any position of management in your company as her skills as a manager and team leader have only grown in the last 6 years I have known her. She showed merit in building a team that suffered low morale and poor cohesion and built them into a team that stood strong for their Residents. She took an active interest in the day to day lives of her Residents and lead the care of these vulnerable adults, building Regency Woodland to a well-respected community for elders.

Thank you for your consideration of Melani Fuller in a position of management for your company. Please contact me at any time for additional recommendations or further questions.

Respectfully Yours;

Tracy R. Eckertson RN
